Libraries: Flask-Migrate, Flask-Login, Flask-WTF, Werkzeug, Tesseract OCR, Matplotlib
Deployment: Netlify, HostGator
Other: Performance Optimization, SEO Fundamentals, UI/UX, Graphic Design

Professional Experience

PM Techno Solutions

May 2026 – Present

Web Developer & Graphic Designer

Bangalore, Karnataka

- Develop and maintain responsive websites using React.js, JavaScript, HTML, CSS, and modern frontend development practices.
- Work on websites across e-commerce, healthcare, astrology, and business domains.
- Develop responsive user interfaces optimized for desktop, tablet, and mobile devices.
- Improve website performance through image optimization, WebP conversion, asset optimization, and frontend improvements.
- Analyze and improve page-speed performance using practical frontend optimization techniques.
- Use Git and GitHub for version control, collaboration, code updates, and deployment workflows.
- Create and modify website graphics, banners, layouts, branding assets, and other digital content.

Internship Experience

VM Technology and Financial Services (VMTFS), Bengaluru

Jan 2026

Web Development Intern

- Developed a responsive company website using HTML, CSS, JavaScript, and PHP.
- Designed an attractive and professional user interface for the company's online presence.
- Developed a functional daily tracking dashboard for internal activity and progress tracking.
- Implemented responsive layouts to ensure usability across desktop, tablet, and mobile devices.
- Worked on website structure, styling, functionality, debugging, and overall user experience.

Projects

SkillSwap Pro

GitHub

Python, Flask, SQLite, Flask-SocketIO, JavaScript, Tailwind CSS, Jinja2

- Developed a full-stack skill-sharing platform connecting users based on skills they offer and want to learn.
- Implemented user authentication, profile management, skill matching, and skill offer/want functionality.
- Built real-time user communication using Flask-SocketIO.
- Implemented gamification features including XP, levels, badges, and reputation.
- Developed review and reputation functionality to improve trust between users.
- Used Flask-SQLAlchemy and SQLite for database management and persistent application data.

ExpenseOrbit

GitHub

Python, Flask, SQLite, JavaScript, HTML, CSS, PWA, Tesseract OCR, Matplotlib

- Developed a full-stack personal finance application for managing expenses, income, budgets, subscriptions, and savings goals.
- Implemented automatic expense categorization using merchant-based pattern matching.
- Integrated Tesseract OCR to extract information from uploaded receipts.
- Developed financial charts and reports to help users analyze spending patterns.
- Implemented Progressive Web App functionality with offline support and background synchronization.
- Added PDF export functionality for financial records and reports.

Education

Sir M Visvesvaraya Degree College

2023 – 2026

Bachelor of Computer Applications (BCA)

SGPA: 8.98 — CGPA: 8.94

Graduated: July 2026

Samruddhi PU and Degree College, Hoskote, Karnataka

2023

Pre-University Course (PUC)

Percentage: 76%

Certifications

- | | |
|---|-------------|
| • DevOps Workshop Certification | Certificate |
| • Software Development & IT Certification | Certificate |
| • AWS Certification | Certificate |
| • Cyber Security – Deloitte | Certificate |
| • Data Analytics Certification | Certificate |
| • Internship Certification | Certificate |

Strengths

- Strong problem-solving and debugging skills
- Quick learner with a growth mindset
- Ability to develop responsive and user-focused web applications
- Strong interest in modern full-stack development technologies
